

## WHEN SPEED MATTERS.

Speed often matters when it comes to the thorough treatment of wooden floors or staircases in hotels, schools or event halls so that the area is taken out of use for as little time as possible. Consequently, we offer an optional solvent-free hardener for heavy-duty OLI-NATURA high-solid oils & waxes, which significantly shortens the hardening time and further increases chemical resistance. A surface treated in this way is fully resilient again within 24 hours, given optimum humidity and room temperature. This saves valuable time and money, and lets you work in an usable friendly way.

## ONE APPLICATION. PERMANENT PROTECTION.

Specialists can now mix "OLI NATURA HS hardener" in a 10:1 solution with "OLI NATURA HS hard wax oil" or "OLI NATURA HS professional oil" shortly before use. A single application creates an excellent level of resistance against the accumulation of dirt and abrasive liquids. In addition, it is highly efficient, with a yield of up to 50 m<sup>2</sup>/l.

The surface looks great - and feels fantastic too. While transparent "OLI-NATURA HS hard wax oil" gives wood a warm and silky-smooth touch, "OLI-NATURA HS professional oil" also brings colour to wood. A total of twelve standard colour shades are available, all of which can be mixed with each other. This allows users to create their own colours.

- Very fast curing = Saves time
- 1 oil application = Saves material
- 100% High-Solid = Protects the environment
- Open-pored = Healthy indoor climate
- Reworkable = Easy to repair
- Colors miscible = High color diversity

## OLI-NATURA 2c-high-solid-oils

Fast. Strong. Perceptibly beautiful.

## OLI-NATURA HS Professional Oil

**1c/2c-high-solid-oil for the professional basic treatment of high-traffic stairs, parquet, wood and cork floors. For interior in uncoloured or coloured.**

- Natural oil based on linseed oil, with a high solids content of almost 100%
- It hardens in the wood, therefore creating a highly resistant, dirt- and water-repellent natural oil surface
- Breathable, antistatic, easy to maintain and easy to repair
- Emphasising of the natural colour of the wood, natural feel and ultra matt finish - uncoloured or coloured
- To accelerate hardening and increase chemical resistance you can also mix the oil with OLI-NATURA HS Hardener in a 10:1 ratio
- Processing with single-disc/rotary floor machine recommended
- Very efficient: 1 coats of 20-40 g/m<sup>2</sup> (1 litre is sufficient for 25-50 m<sup>2</sup>)
- DIBt-certified, cobalt-/oxime-free, safety of toys DIN EN 71-3, DIN 53160 (resistant to saliva and perspiration)
- Packaging: 3, 1 liter(s), Hardener: 300 ml, 100 ml

## OLI-NATURA HS Hard Wax Oil

**1c/2c-high-solid hard wax oil for the professional basic treatment of high-traffic stairs, parquet, wood and cork floors. For interior in uncoloured.**

- Combination of oil and wax with a high-solid content of almost 100%
- Protects the wood from the inside, forming an open-pored, durable, water-repellent and silk-mat waxfilm on the surface
- Enhances the grain and the natural colour of the wood
- To accelerate hardening and increase chemical resistance you can also mix the oil with OLI-NATURA HS Hardener in a 10:1 ratio
- Ideal for large surfaces: 60-90 minutes until to buff
- Processing with single-disc/rotary floor machine recommended
- Very efficient: 1 coats with 20-40 g/m<sup>2</sup> (1 litre is sufficient for 25-50 m<sup>2</sup>)
- DIBt-certified, cobalt-/oxime-free, safety of toys DIN EN 71-3, DIN 53160 (resistant to saliva and perspiration) Processing with single disc recommended
- Packaging: 3, 1 liter(s), Hardener: 300 ml, 100 ml

## CARE NOW COMES IN A BOX.

Customers opting for floorboards or wooden staircases treated with oil or hard wax oil expect flawless surfaces, even after years of use. They welcome professional care products and helpful tips for keeping wooden floors or solid staircases in good condition for as long as possible. We have designed two care boxes to meet this need. »Wood care set no. 1« is designed for oiled surfaces. By contrast, »Wood care set no. 2« is intended to be used on wood treated with hard wax oil.

The 5-part sets provide the end user with an ideal starting point for caring for wood treated with oil or hard wax oil. In addition to a 250 ml can of "OLI-NATURA wood care oil" or "OLI-NATURA wood care wax", the box contains a 250 ml bottle of "OLI-NATURA wood soap", a care cloth, a soft pad and care tips. The wood care wax or oil ensures that the surface is continually freshened up, while the wood soap cleans quickly and moistorizes oil.
